Introduction to MRI

MRI

Introduction to MRI

MRI

- ✓ Safe – no ionizing radiation
- ✓ Rich visual information
- ✓ Captures static & dynamic data

Introduction to MRI

MRI

Limitations:

- Long scan duration (30-60min)
- Sensitivity to motion artifacts
- Expensive

Motion Artifacts

Zaitsev et al. MRM 2015

How can we make scans
faster?

MRI: from sampling to images

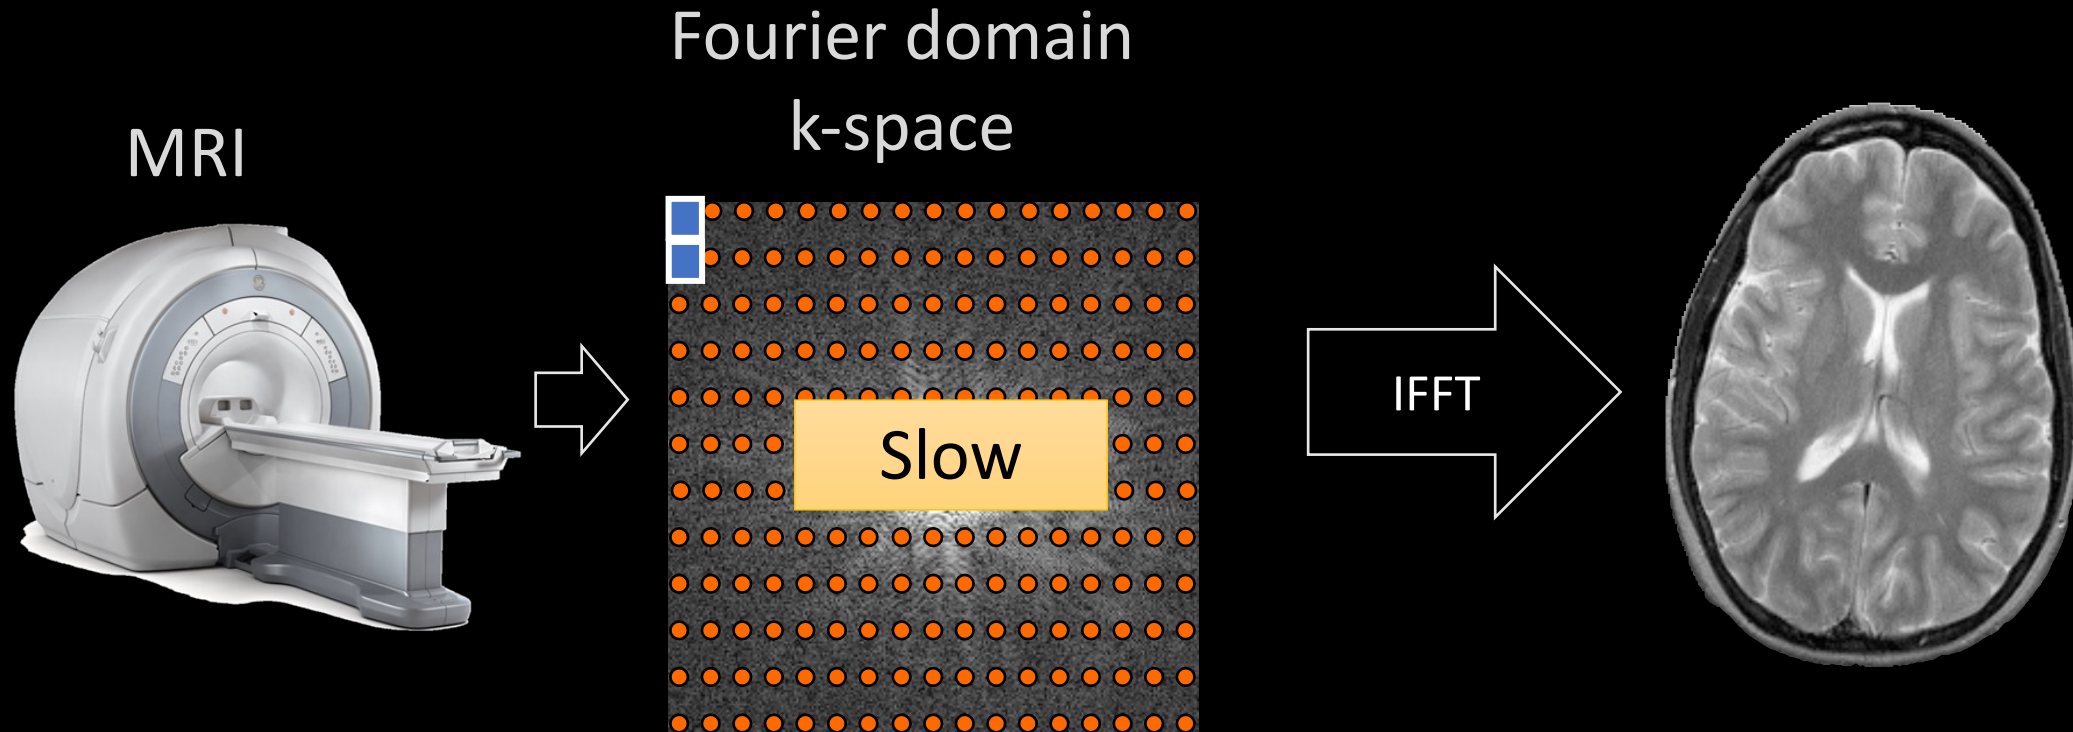

MRI

Fourier domain
k-space

MRI: from sampling to images

MRI: from sampling to images

MRI: from sampling to images

MRI: from sampling to images

Parallel Imaging (1990s-2000s)
Compressed Sensing (2006-)
Machine Learning (2016-)

Training data?

Data Crimes

How image reconstruction algorithms are developed

How image reconstruction algorithms are developed

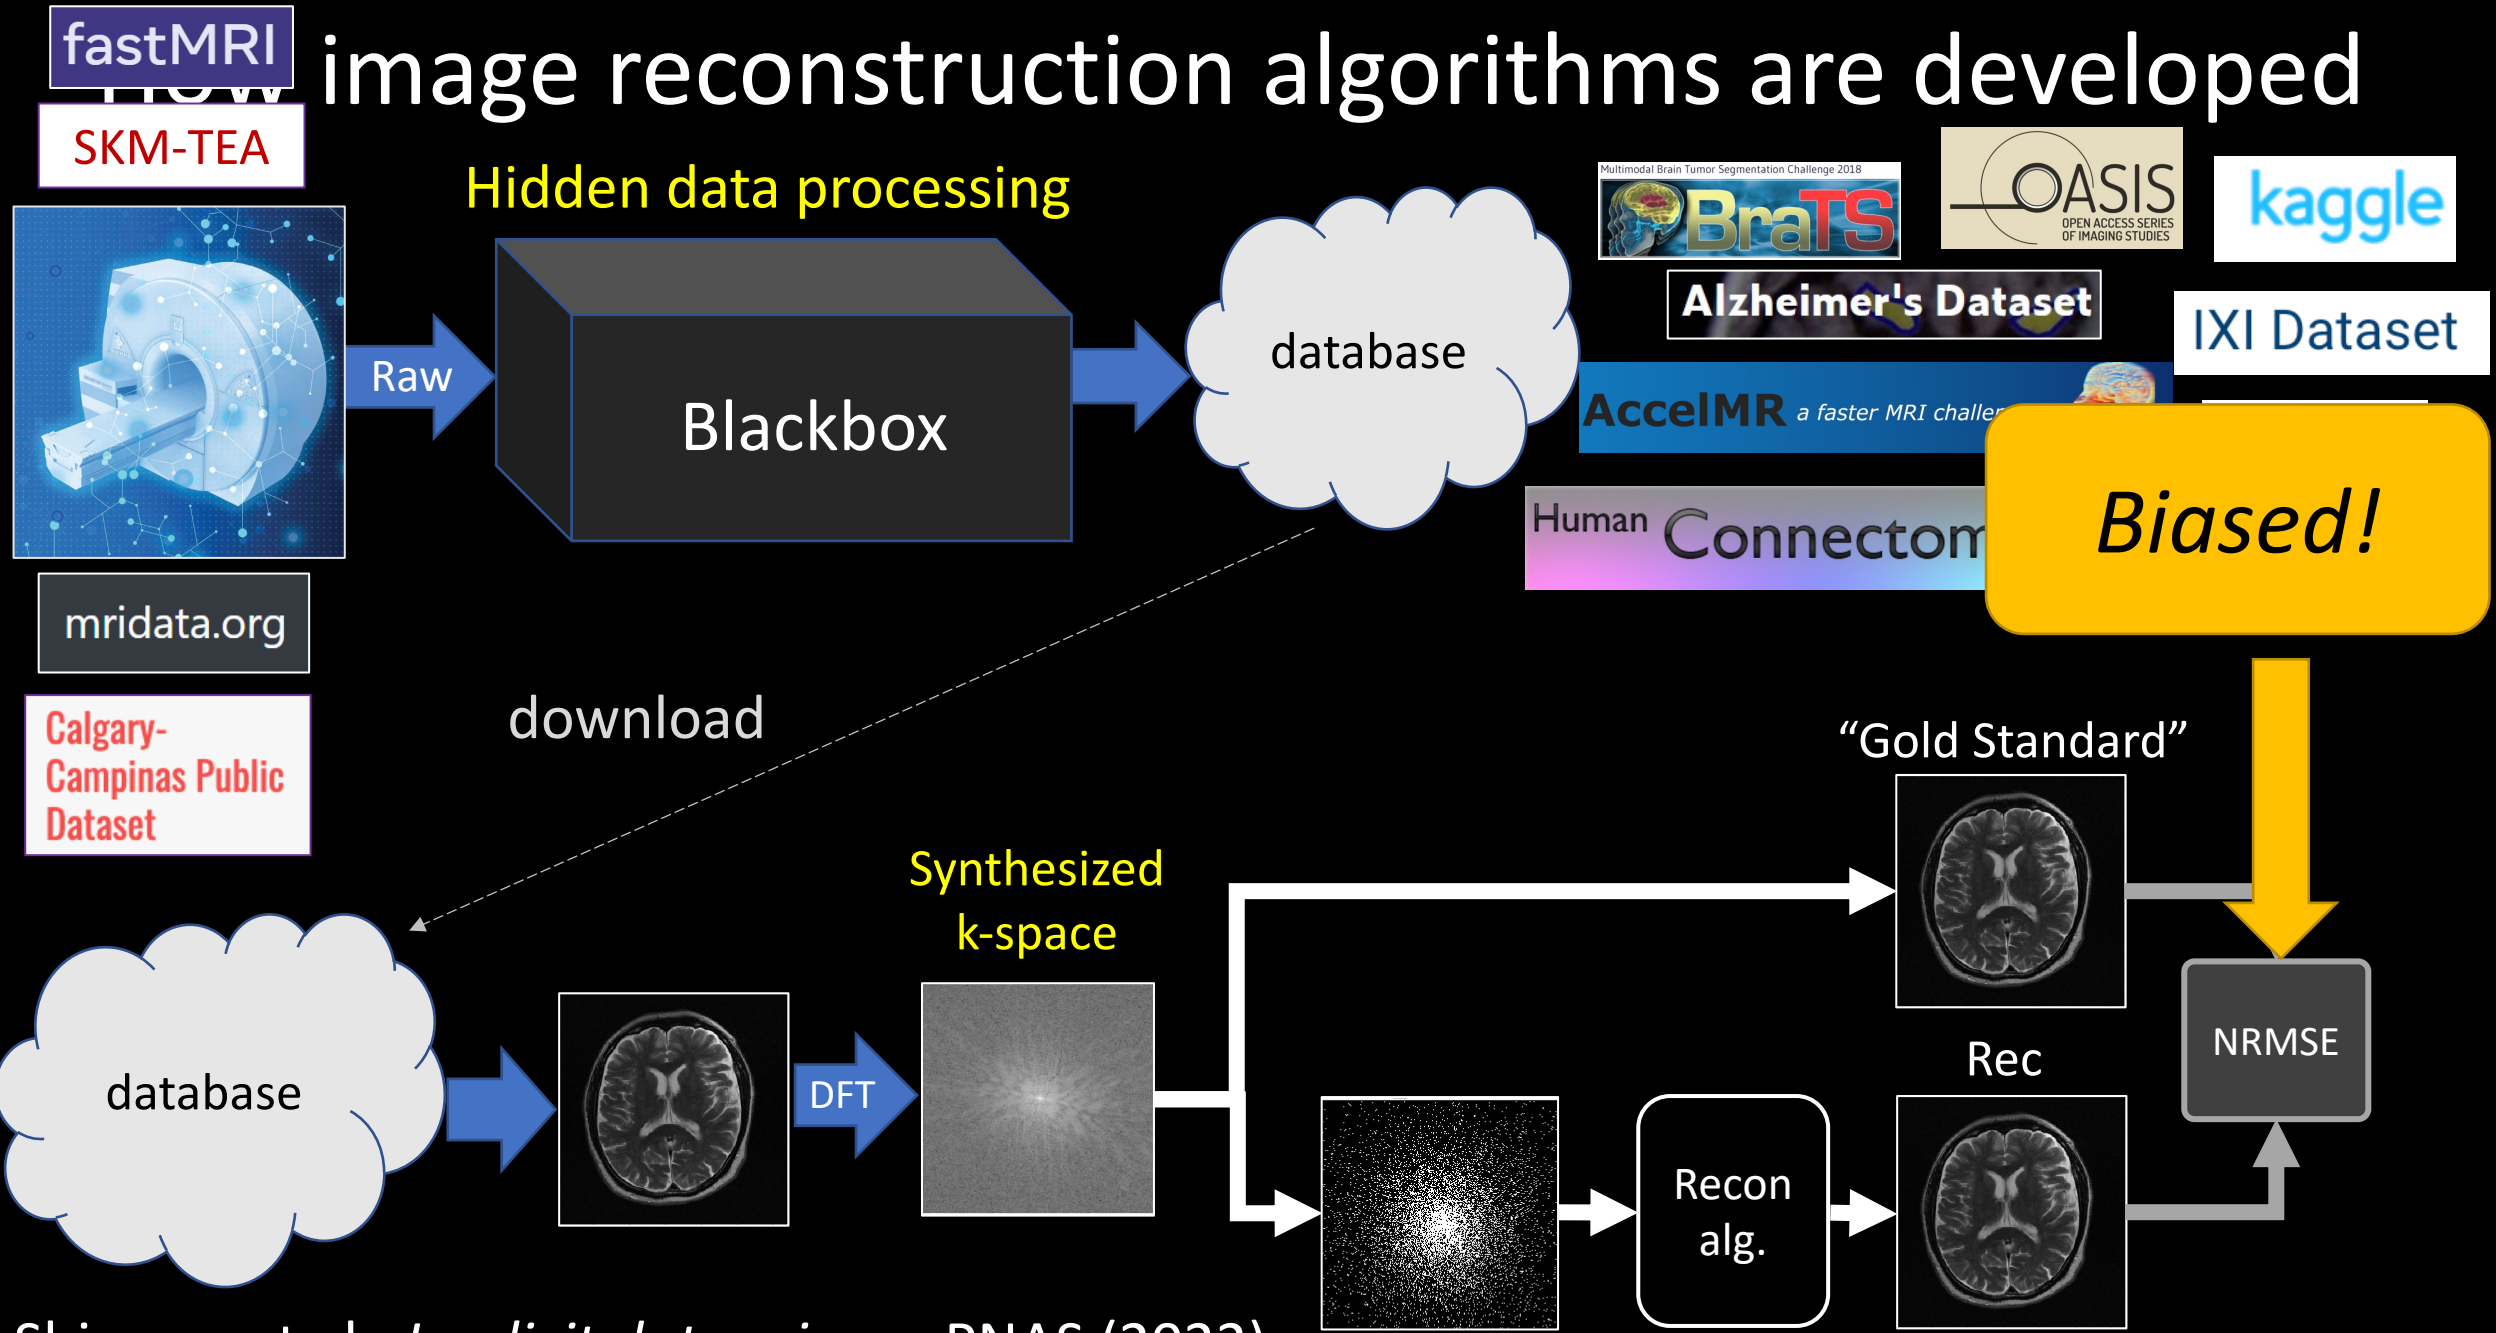

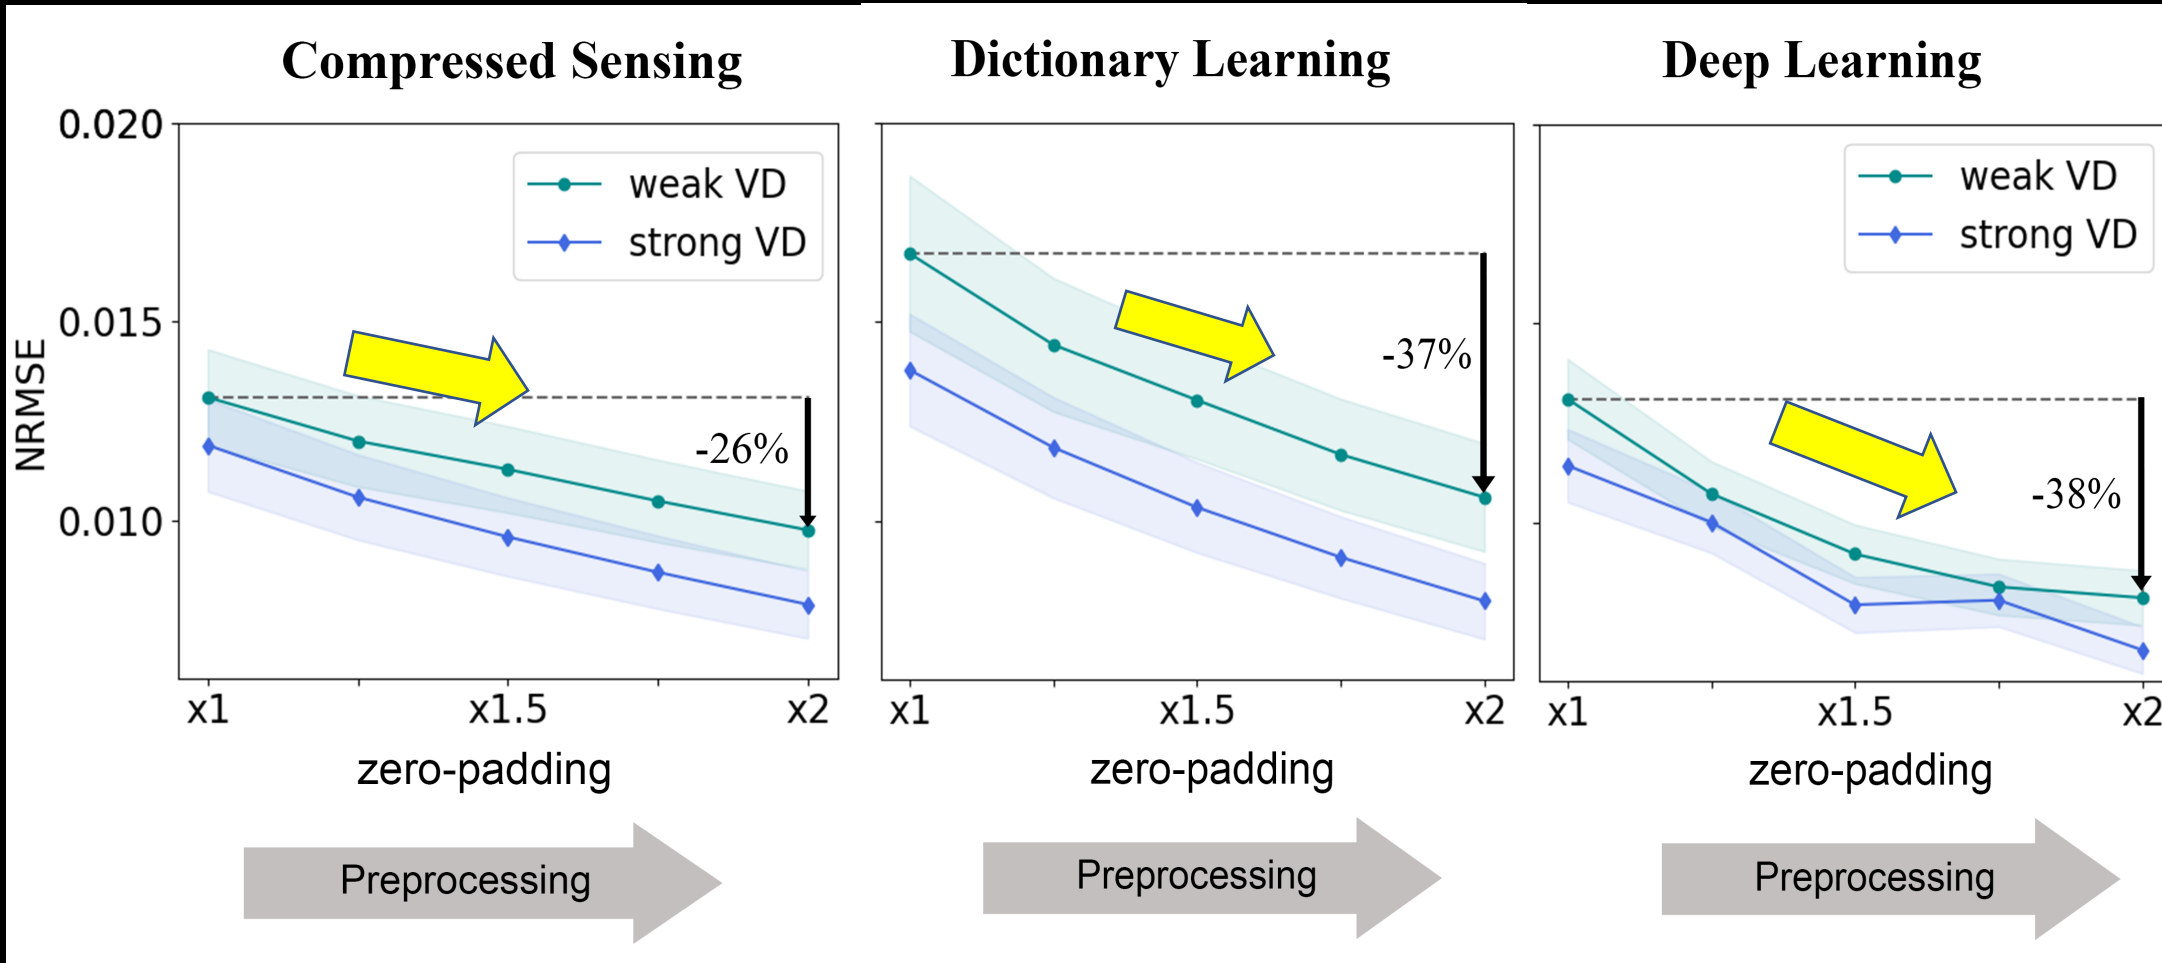

image reconstruction algorithms are developed

Shimron et al., *Implicit data crimes*, PNAS (2022)

Data Crimes: Implicit Bias of Reconstruction Algorithms

FastMRI Data

Shimron et al., *Implicit data crimes*, PNAS (2022)

Lustig et al., MRM (2007); Ravishankar et al, IEEE TMI (2010); Aggarwal et al. IEEE TMI (2019)

Can we train on processed data &
use the algorithms for clinical data?

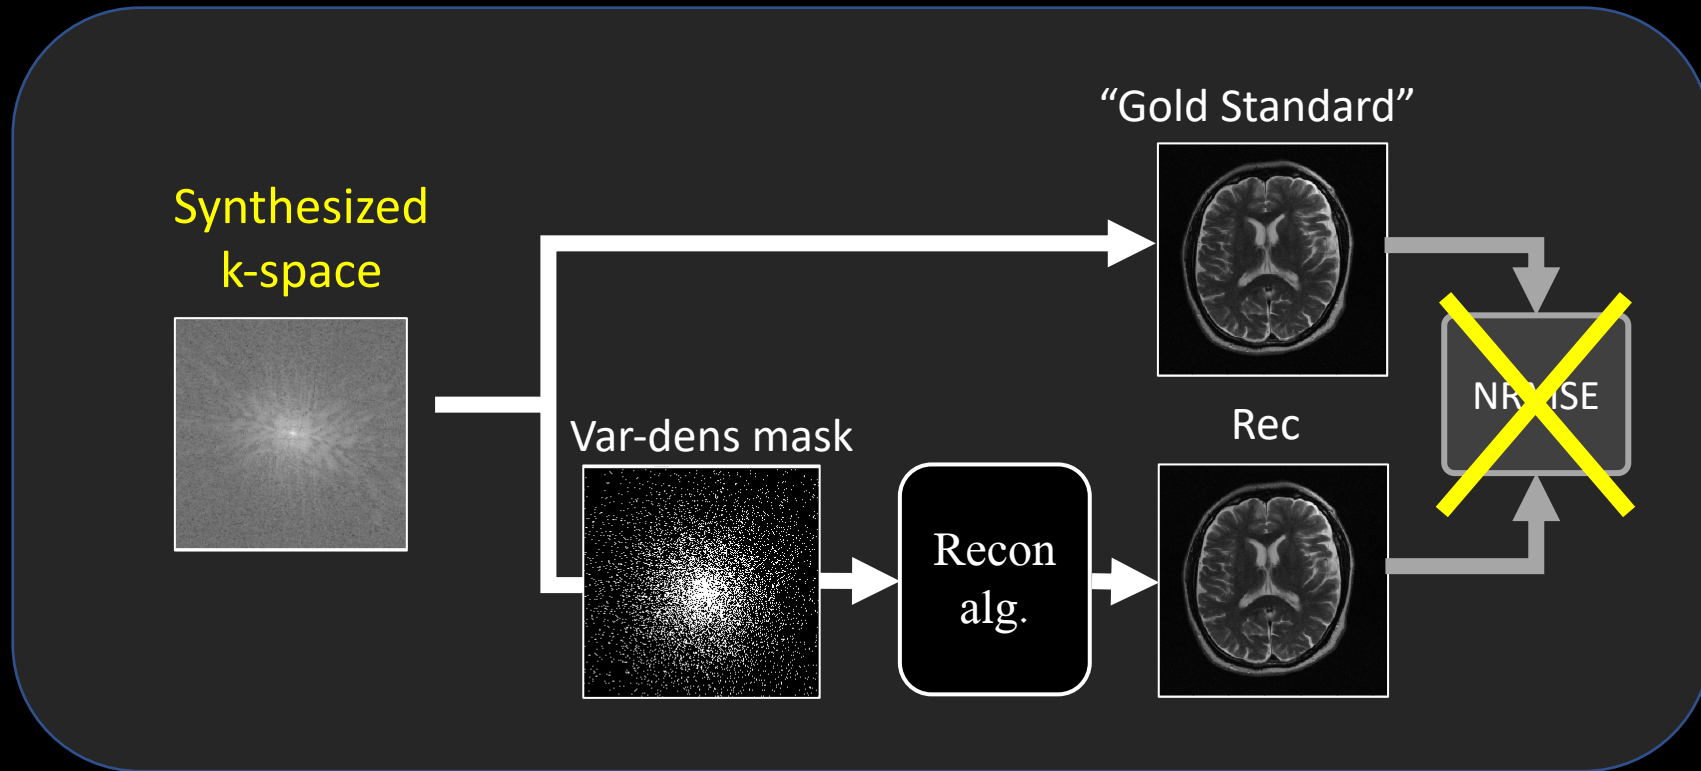

Data Crimes: Implicit Bias of Reconstruction Algorithms

Data Crimes: Implicit Bias of Reconstruction Algorithms

✗ Naïve use of Big Data can lead to biased results

✗ Error metrics - *blind* to the preprocessing

Data Crimes: Implicit Bias of Reconstruction Algorithms

- X Naïve use of Big Data can lead to biased results
- X Error metrics - *blind* to the preprocessing
- X Algorithms trained on processed data could fail for clinical data - they miss important details

Acquisition is too slow –
full data is unavailable

No suitable
data

How can we
develop new
imaging methods?

K-Band

K-band: Fast Acquisition & Self-supervised Reconstruction

Han Qi

Fred Wang

Video is courtesy of Lustig lab

Wang et al., arXiv 2023, “k-band: self-supervised MRI reconstruction”

K-band: Fast Acquisition & Self-supervised Reconstruction

But gives data with
a limited resolution

fast!

Wang et al., arXiv 2023, “k-band: self-supervised MRI reconstruction”

K-band: Fast Acquisition & Self-supervised Reconstruction

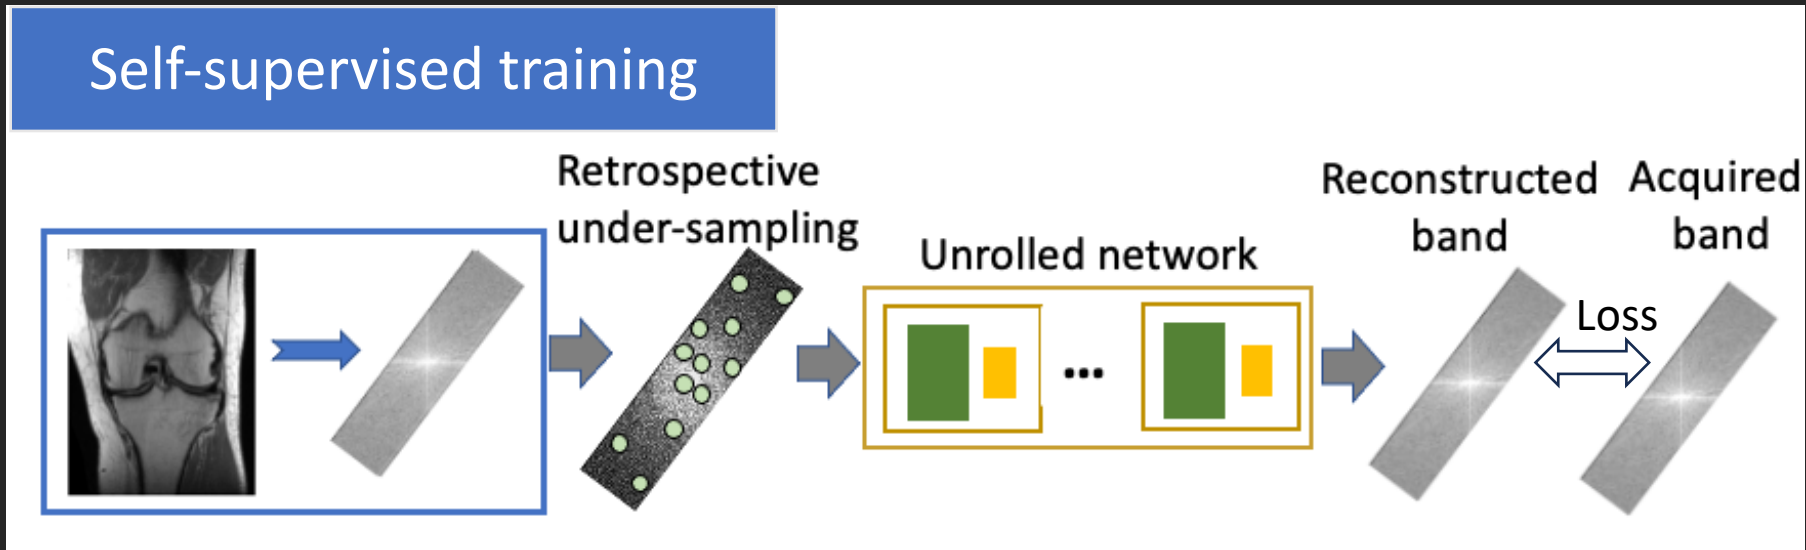

Can we use this limited-res data?

Wang et al., arXiv 2023, “k-band: self-supervised MRI reconstruction”

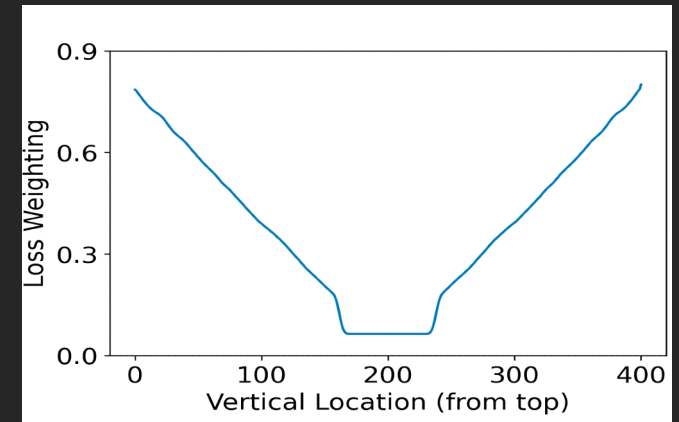

K-band: Fast Acquisition & Self-supervised Reconstruction

S.G.D. over k-space subsets

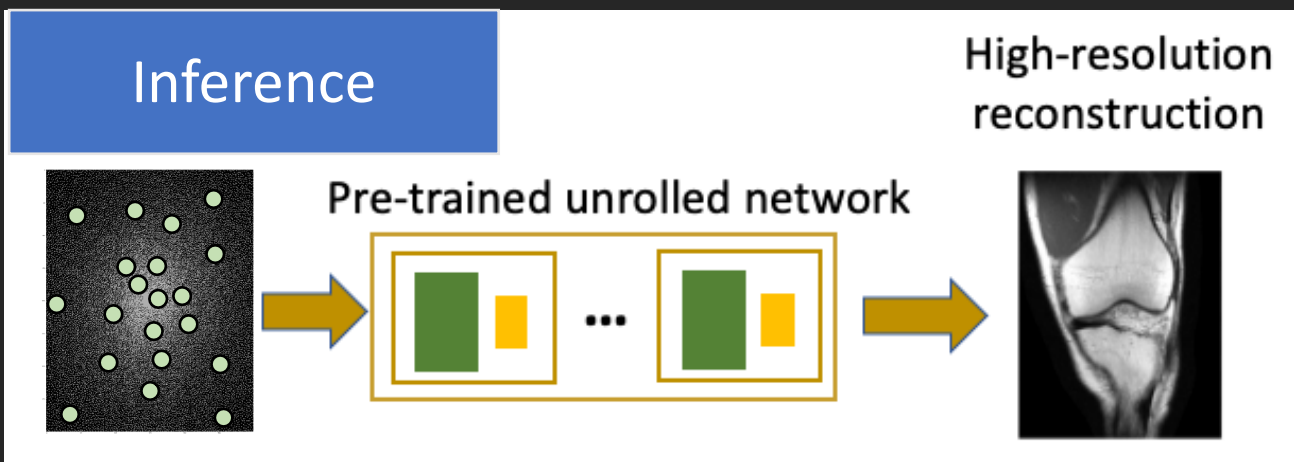

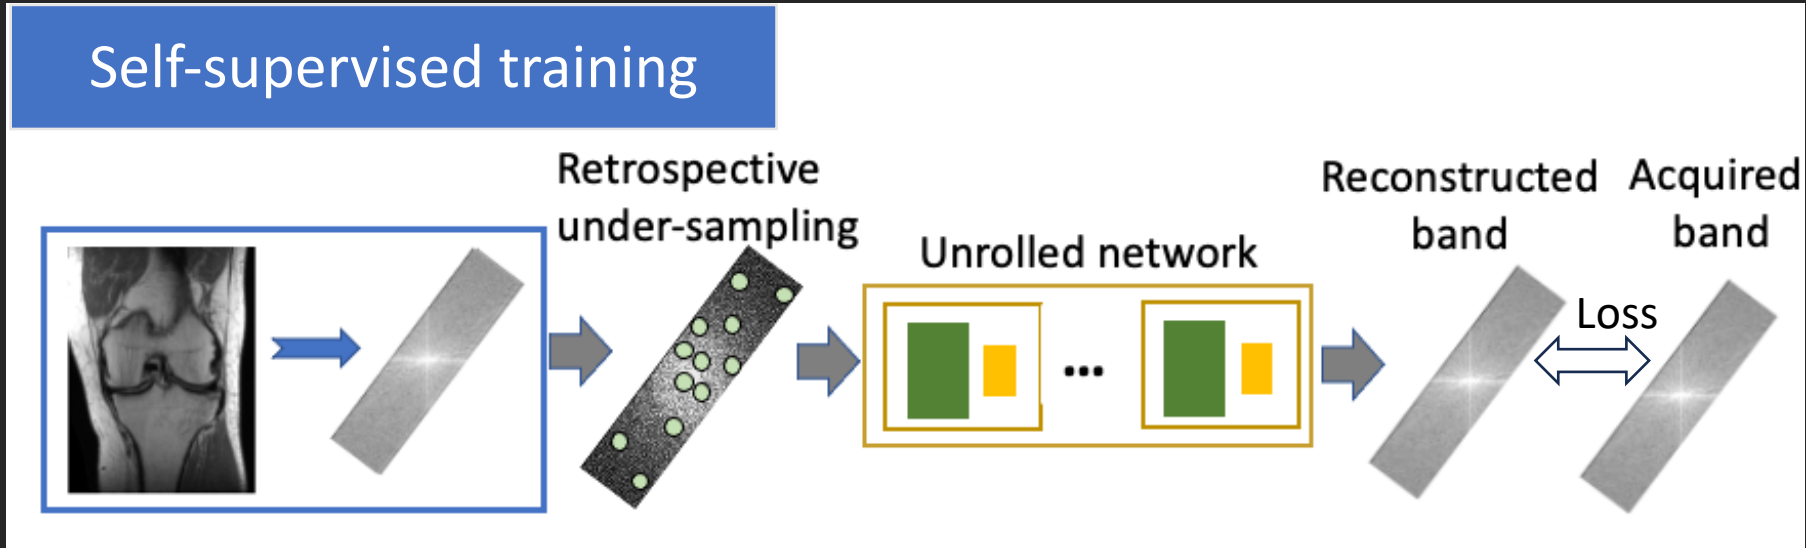

✓ Convergence proof

Loss-weighting mask

Wang et al., arXiv 2023, “k-band: self-supervised MRI reconstruction”

K-band: Fast Acquisition & Self-supervised Reconstruction

Training on partial, limited-res data

Test-time generalization to high-res data

Wang et al., arXiv 2023, "k-band: self-supervised MRI reconstruction"

Low-field MRI: Accessible & affordable

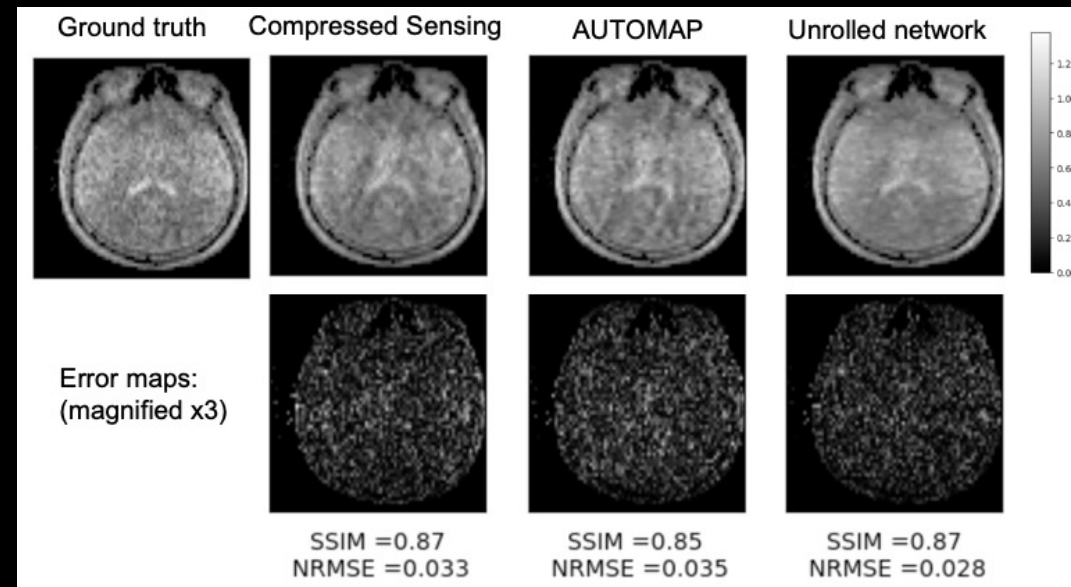

Hyperfine.io

- ✓ Low-cost
- ✓ Portable
- Low SNR
- Long scans

We improve speed & SNR with AI
